

# Product Requirement Document

---

Version: 1.0

## Document Control

| Version | Date       | Author       | Description     |
|---------|------------|--------------|-----------------|
| 1.0     | 2026-05-12 | Hardik Patel | Initial Version |

## Reviewers

| Name         | Role | Approval Date |
|--------------|------|---------------|
| Hardik Patel | CTO  | 2026-05-13    |

## Approvers

| Name         | Role | Approval Date |
|--------------|------|---------------|
| Hardik Patel | CTO  | 2026-05-14    |

## Product Overview

Provide a high-level overview of the product or feature.

Include:

- Product purpose
- User problem being solved
- Expected business impact

Example:

The platform enables customers to browse products, place orders, and track deliveries through a seamless e-commerce experience.

## Product Goals

Define measurable product goals.

| Goal ID | Goal                               |
|---------|------------------------------------|
| PG-001  | Improve checkout completion rate   |
| PG-002  | Simplify order tracking experience |
| PG-003  | Improve mobile shopping usability  |

## Target Users

Define primary user groups.

| User Type     | Description                    |
|---------------|--------------------------------|
| Customer      | Browses and purchases products |
| Admin         | Manages inventory and orders   |
| Support Agent | Assists customers with issues  |

## User Personas

Describe representative users.

## Example Persona

| Attribute  | Value                       |
|------------|-----------------------------|
| Name       | Sarah Johnson               |
| Role       | Online Shopper              |
| Goal       | Fast and simple checkout    |
| Pain Point | Complicated payment process |

## Product Features

List major product capabilities.

| Feature ID | Feature Name    | Description                 |
|------------|-----------------|-----------------------------|
| FEAT-001   | Product Search  | Users can search products   |
| FEAT-002   | Cart Management | Users can manage cart items |
| FEAT-003   | Checkout        | User can place orders       |
| FEAT-004   | Order Tracking  | Users can track deliveries  |

## User Journey

Describe the expected user flow.

Example User Journey:

## Functional Requirements

Define detailed product behaviors.

| Requirement ID | Description                                     |
|----------------|-------------------------------------------------|
| FR-001         | Users should be able to create accounts         |
| FR-002         | Users should be able to search products         |
| FR-003         | Users should be able to save delivery addresses |
| FR-004         | Users should receive order confirmation emails  |

## Non-Functional Requirements

Define system expectations and quality attributes.

| Requirement ID | Description                                   |
|----------------|-----------------------------------------------|
| NFR-001        | Mobile pages should load under 3 seconds      |
| NFR-002        | System should support 10,000 concurrent users |
| NFR-003        | User data must be encrypted                   |
| NFR-004        | APIs should be highly available               |

## Product Scope

### In Scope

- Product browsing
- User authentication
- Cart and checkout
- Order management

### Out of Scope

- Subscription commerce
- International expansion

- Marketplace seller onboarding

## Assumptions

Document assumptions related to product behavior.

Example

- Users have stable internet connectivity
- Payment providers are operational
- Inventory system data is accurate

## Constraints

| Constraint Type | Description                               |
|-----------------|-------------------------------------------|
| Timeline        | MVP launch in 4 months                    |
| Budget          | Limited engineering resources             |
| Compliance      | Must comply with data privacy regulations |

## Success Metrics

Define measurable indicators of success.

| Metric                 | Target          |
|------------------------|-----------------|
| Checkout Success Rate  | 98%             |
| Cart Abandonment Rate  | Reduce by 20%   |
| Monthly Active Users   | 100,000         |
| Mobile Conversion Rate | Increase by 15% |

## Dependencies

| Dependency           | Description                     |
|----------------------|---------------------------------|
| Payment Gateway      | Required for payment processing |
| Inventory System     | Required for stock validation   |
| Notification Service | Required for order updates      |

## Risks

| Risk ID  | Risk Description                        | Impact |
|----------|-----------------------------------------|--------|
| RISK-001 | Checkout complexity reduces conversions | High   |
| RISK-002 | Mobile performance issues               | Medium |
| RISK-003 | Third-party API downtime                | Medium |

## Open Questions

Track unresolved product questions.

| Question ID | Question                               | Owner         |
|-------------|----------------------------------------|---------------|
| Q-001       | Should guest checkout be supported?    | Product Team  |
| Q-002       | Should delivery slots be configurable? | Business Team |
